

226 PR 2122 Nextlink Tower request

Good morning,

This request is to install a 35' tower exactly like the tower that is on the Stone families property. I tried having Nextlink ping the surrounding towers without a tower but we were unable to get a signal. I desperately need this tower as I work from home 50% or more of the time.

It will be mounted on the south facing side of the "she-shed" on our property. I was told it would be buried 5-8' below ground and then mounted for stability to the shed. Roundtree Appliances in Clifton will be doing the installation.

Please let me know if there are any questions.

Thank you
